

RUSSIANS TO TRY TO
BEAT DOWN TERMS

Peace Seems Certain After so Much Negotiation at Portsmouth---St. Petersburg is Hopeful From Witte's Dispatches

PORTSMOUTH, Aug. 12.—The peace envoys met this morning at 935 and adjourned after an hour's session. The Russian answer to the Japanese demands was delivered, the Russians objecting to certain phases of the proposed terms. Sato announced after the session that the conferences would continue, the negotiations being based upon those points to which Russia objects.

To Fight on Terms Now.

PORTSMOUTH, Aug. 12.—The mystery of the presence of Russian military and naval experts at the peace conference has been explained. They are here to combat the correctness of Japan's claim for reimbursement on the cost of the war, and to reduce the demand for indemnity to what is considered reasonable by the Russian.

It is believed negotiations will continue for some time. It is expected there will be a number of interchanges of opinions before an agreement is finally reached.

Hopeful at St. Petersburg.

ST. PETERSBURG, Aug. 12.—A hopeful view of the peace outlook continues here. Optimistic telegrams from Witte have caused the belief that he will agree on terms: The papers bitterly attack the Japanese and criticize the United States and England calling them the allies of Japan.

City May Burn
its Garbage

City officials favor the burning of the city's garbage or some other effective and sanitary disposal of the refuse. The board of public works last night recommended to the council that some feasible plan of disposing of garbage from the city be carried out. The project, which promises to be a big one if carried out, was referred to the committee on health.

SALARY
FOR OR-
GANIZER

William Panke Elected
to Important Office---
Other Elections

La Crosse Trades and Labor Council now has a salaried organizer, whose duty it is to exercise a general supervision over all the unions of the city and devote his whole time to organizing new locals and building up trades organizations here.

This step, which means much to organized labor here, was taken at the semi-annual meeting of the Trades and Labor Council last night, when by a unanimous vote it was decided to have a salaried organizer. William Panke was chosen for the position, and offices will be established for him in Bart's hall, the headquarters of the Trades and Labor council.

While for several years past the council has had an organizer he was never required to put in his whole time at the work, only being called upon in cases of trouble or whenever it was deemed advisable to organize a new local. The organizer in the past has in most cases been a tradesman who kept at his work except when the affairs of local unions required his attention. The position has heretofore paid only for actual work done, and except during a period a couple of years when organized labor took a great stride forward and numerous new unions were organized here, has never been a very lucrative office.

Efforts will be directed to effect the organization of a number of new trades in this city during the next year. One of the first duties of Mr. Panke will be to get the cement sidewalk workers together and secure a charter for them, and there are some other classes of laborers that will be given similar attention in the near future.

Chandler President.

The following officers were elected last night to serve for the ensuing six months:

President—Bert Chandler.
Vice president—John Ray.
Recording secretary—Louis Weisbecker.
Financial secretary—A. Weigel.
Treasurer—William Imhoff.
Sergeant-at-arms—Emil Hickel.
Guide—George Nagle.
Board of Trustees—A. Collins, A. Ruegg, John Florian.
Organizer—William Panke.

GIRL SEEKS FORTUNE BY
SLAYING DEADLY SNAKES

Mary Bundrau, Aged 14, of Town of Shelby Kills Four on First Day and Pockets two Dollars

Mary Bundrau, a fourteen-year-old girl of the town of Shelby, bears the distinction of being the first La Crosse county girl to endeavor to earn money by killing the deadly rattlesnake. She reaped the first fruits of her dangerous occupation yesterday when she cashed in four rattlers with the county clerk.

Pocketing her two dollars with an appreciative smile she told the deputy clerk of her ambition to make her own pocket money, and of how this avenue had been opened to her by hearing her brothers talk of the bounty on rattlesnakes. Accustomed to seeing the poisonous reptiles about the farm she did not fear them, but with a stout club started the next day on the hunt. The rattlers are leaving the hills now and spreading about the level farm lands and she had little difficulty in finding a number of them. A few got away, but with well directed blows of the club she dispatched four, for which she collected bounty yesterday.

Miss Mary says it is easy to earn money that way and she is going to get some more.

WIFE GLARES WHILE TAGGART TELLS BAD STORIES

WOOSTER, O., Aug. 12.—Captain Taggart resumed the stand this morning.

He told of a number of indecorous stories he said his wife was in the habit of telling. His wife sat facing the witness with blazing eyes.

In answer to questions Taggart said: "My wife's relations with other ladies at Fort Leavenworth were apparently friendly though intimate with only two. I saw my boys for the first time after my release from the hospital at San Francisco enroute to the Philippines in the transport service. I met my wife and we agreed to take no action while my service at sea lasted. Mrs. Taggart bade me good-bye with a kiss."

He ended his testimony at 11 o'clock. Smiyser, for Mrs. Taggart, began the cross-examination. Smiyser sought to get an admission from Taggart that he was responsible for his wife's drinking. The court adjourned until Monday morning.

Minor Won't Talk.

COLUMBUS, O., Aug. 12.—Brigadier General Minor, retired, who is mentioned in the Taggart trial, won't talk. He says he will tell his story on the witness stand. His wife's confidence in him is apparently not shaken.

EGAN LEADS FOR NATIONAL
GOLF CHAMPIONSHIP AT CH.

GERMAIN SAYS POLICE
ICE BATTERED HIM

Until Cell Looked Like Slaughter House After Dragging Him From Bed in Chains--- Sentenced to County Jail

Claiming that the police dragged him from bed with a chain attached to his wrist, knocked him about in his yard, hustled him to the police station in the patrol wagon and there beat him until his face was a mass of bruises and cuts, and finally threw him into a cell where he bled until his cell floor resembled a slaughter house, Jules Germaine this morning on the witness stand sought to clear himself from the charge of resisting an officer.

Germaine who was yesterday examined for his sanity and declared sane, was arraigned on this new charge today and taking the witness stand in his own behalf, told the court and jury a rather blood curdling tale of alleged mistreatment at the hands of the police. He further charged that the police had been viciously persecuting him for some years; in fact had arrested him and hauled him into court on every provocation. Germaine's police record which was read to the court, recounted numerous occasions upon which the defendant had pleaded guilty or been convicted by jury.

Members of the police department denied every allegation made by Germaine relative to their abuse and persecuting him without cause. They claimed he was stubborn and unruly and in order to handle him they had to use extreme measures, such as the "comealong" and other articles with which they are provided.

The jury found Germaine guilty of resisting an officer and he was sentenced to four months in the county jail.

Bacheller Calls Point of Order on North Side Ald. When he Challenges Salary Increase

Alderman Downs last evening again challenged the bill allowing Assistant Engineer W. S. Woods an increase of \$15 per month in salary and succeeded in having the special committee report favoring the increase adopted before he would allow the regular bills of the finance committee containing the second month's salary to go through.

Alderman Bacheller while reading the finance committee bills discovered that the comptroller had not audited the Woods salary increase bill nor that of C. N. Jarvis, another employee of the department who received a \$10 increase five months ago.

Demand Council's Approval.

Comptroller Connor did not stir from his seat in the chamber to audit the bills until after the council took action on the resolution providing for the increases, after which Alderman Bacheller handed him the bills and they were audited.

When the resolution was brought up Alderman Downs arose and demanded to know what had become of the proposition to increase Draftsman Otto Mueller's salary. For this he was ruled out of order by Mayor Torrance after a point of order was raised by Bacheller, the mayor declaring that the Mueller matter was not before the council.

Would Remove Downs.

Alderman Downs started to say something else when the mayor leaned over from his desk and tapping with his pencil to attract the attention of the sergeant said sharply: "The sergeant will see that Alderman Downs takes his seat or leaves the chamber." Alderman Downs responded "All right," and took his seat.

Increase for Mueller, Too.

Later, however, Alderman Downs scored, an amendment introduced by Alderman Lang providing for an increase for Otto Mueller being adopted.

Lang, Up Against It, Too.

Alderman Lang attempted to introduce another amendment providing that all monies earned by the city engineers for private surveying during regular hours be paid into the city treasury. The mayor ruled this out of order and stated it could be introduced as a separate resolution later.

—ADDRESS—

WISCONSIN BUSINESS UNIVERSITY

LA CROSSE, WISCONSIN.

BOTH PHONES

SAY CANADA IS A NEW GARDEN OF EDEN

Nels Thompson and Chris. Pederson have returned from a trip into the Canadian Northwest with a new conception of the possibilities of that country. Both are enthusiastic over the country they viewed on their long trip, and say that in many respects the land up there beats the Dakotas for farming results.

Mr. Thompson and Mr. Pederson made their trip over the Canadian Pacific and traversed several hundred miles of the Canadian country out toward the coast. They were greatly impressed with the country surrounding Bonington and Saskatoon, in the world famous wheat belt of the Saskatchewan Valley, where they stopped and investigated conditions thoroughly.

It is a rolling prairie country, well watered, with a rich and highly productive soil. The possibilities of this country are just being opened to people from the states and there has been a great influx of settlers lately. New towns are springing up rapidly and all are being built in a substantial manner, which betokens a productive and thriving country. In some of these new towns are found large stores, telephone systems and other conveniences known to old established cities.

Both the tourists say the soil is some of the best for raising wheat and small grain they ever saw. The harvest, which was in progress while

they were there, was yielding in many places 35 bushels of grain to the acre, while wheat and oats was running up to 75 bushels.

Mr. Pederson will remain in the city for a few weeks, while Mr. Thompson left yesterday for his new home in Northwood, N. D. They will buy extensive tracts of land in the new country they visited.

LATE CITY NEWS

City officers and aldermen will hold their annual outing August 24, the date being fixed last night.

The council refused to allow the Bigelow Ice company to erect a slide for the removal of ice from the ice house at Sixth and Main street, the aldermen feeling that the slide would spoil the appearance of the new brick paved alley. The owner de-

clares that he has \$5,000 worth of ice tied up in the building. It is being removed, however, by slides on Bigelow's property.

Alderman T. B. Anderson's resignation was accepted.

The wagon bridge was declared free for fair week.

The council prorogued until Tuesday evening.

Mr. J. A. Habie, wife and children of Ames, Iowa, are visiting the former's parents, E. Mabie, of 520 Cass street.

Miss Bessie Simpson and Thomas Simpson have returned from a short stay at Black River Falls with some young friends.

A plan which has been under consideration for some time by the Interstate Fair association and city officials was brought before the council last night, and the ultimate conversion of the fair grounds into a beautiful park is assured.

An ordinance was given its first and second reading providing for the planting of 200 shade trees per year by the fair association, during the next five years. It is also stipulated that the fair association level its land, make green lawns and erect pleasure drives. The ordinance is in the nature of an agreement between the association and city, in consideration of the former being allowed to use city land for its exposition.

ROOSEVELT MAKES STRONG TALK ON THE "BAD" TRUSTS

Chautauqua, N. Y., Aug. 12.—The principal interest attending the president's visit here was in his speech, which it had leaked out was to be an important one. There consequently was a very large audience, and when the president appeared he was given great and enthusiastic applause. He began his speech with a reference to the Monroe doctrine, saying that he wished to speak to his hearers "on one feature of our national foreign policy and one feature of our national domestic policy." Then he proceeded:

"Continually Changing Doctrine. "The Monroe doctrine is not a part of international law. But it is the fundamental feature of our entire foreign policy so far as the western hemisphere is concerned, and it has more and more been meeting with recognition abroad. The reason why it is meeting with this recognition is because we have not allowed it to become fossilized, but have adapted our construction of it to meet the growing, changing needs of this hemisphere."

Purposes of the Policy. He declared that the Monroe doctrine "forbids the territorial encroachment of non-American powers on American soil. Its purpose is partly to secure this nation against seeing great military powers obtain new footholds in the western hemisphere and partly to secure to our fellow republics south of us the chance to develop along their own lines without being oppressed or conquered by non-American powers. * * * What has tempted most to give the doctrine standing among the nations is our growing willingness to show that we not only mean what we say and are prepared to back it up, but that we mean to recognize our obligations to foreign peoples no less than to insist upon our own rights."

ROOSEVELT DOCTRINE DEFINED

What the United States Will and Will Not Do About It.

He said that not just and orderly government on this continent had anything to fear from the doctrine in its latest interpretation, and then added: "It must be understood that under no circumstances will the United States use the Monroe doctrine as a cloak for territorial aggression. Should any of our neighbors, no matter how turbulent, how disregarding of our rights, finally get into such a position that the utmost limits of our forbearance are reached, all the people south of us may

rest assured that no action will ever be taken save what is absolutely demanded by our self-respect; that this action will not take the form of territorial aggrandizement on our part. * * *

"As to the second point, if a republic to the south of us commits a tort against a foreign nation, such, for instance, as wrongful action against the persons of citizens of that nation, then the Monroe doctrine does not force us to interfere to prevent punishment of the tort, save to see that the punishment does not directly or indirectly assume the form of territorial occupation of the offending country."

"The case is more difficult when the trouble comes from the failure to meet contractual obligations. Our own government has always refused to enforce such contractual obligations on behalf of its citizens by the appeal to arms. It is much to be wished that all foreign governments would take the same view. But at present this country would certainly not be willing to go to war to prevent a foreign government from collecting a just debt or to back up some one of our sister republics in a refusal to pay just debts."

He then cited Cuba and San Domingo as instances of the justice of the United States in its dealing with the Latin Americans, and took the opportunity to explain and defend his action in San Domingo as he has previously defended that action, declaring that every consideration of wise policy and generosity justified that action.

The president then took up the subject of government regulation of corporations and said that what is wanted "is not so much the effort to prevent combination as a vigilant and effective control of the combinations formed, so as to secure just and equitable dealing on their part alike toward the public generally, toward their smaller competitors and toward the wage-workers in their employ." As complained that some corporations "exhaust every effort which can be suggested by the highest ability, or

Society

By ALICE W. WHEELER

The sleepy dog-days of August have settled upon the town, and the social atmosphere is dull and stupid. The Country club furnishes a refuge for people who cannot get out of the city during the "heated spell." It is always cool and delightful there and fortunate are those who are members for they can entertain and be entertained without care or responsibility. There are many strangers in the city, and certainly there is no more delightful way of passing away the hot days than to take them to this beautiful spot. There has been very little in the way of private functions this week. Many parties have fled to the cooling shades of the bluffs or the banks of the river where they have taken up their abode in cottages and tents. We are promised cooler weather so let us "possess our souls in peace" till that happy time puts in an appearance.

COFFEES.

Friday afternoon Mrs. N. D. Allen entertained the high school class of '84 in honor of her guest, Miss Marion Day. Those invited were Mesdames Edward Evans, C. A. Smith, S. L. McKee of West Salem, Alice Vogt, J. W. Skinner, W. R. Finch, W. A. Pryor, Miss Mary Crosby, Miss Lillie Kosander and Miss Barbara Paul.

Wednesday Mrs. Alfred James entertained twenty guests at a coffee at the Country club. The invited guests were Mesdames Hiram Goddard, Geo. Gordon, F. M. Egbert, George Ray, F. P. Hixon, G. W. Traer, E. L. Colman, L. C. Colman, H. L. Colman, Mills Tourtellotte, W. A. Thompson, H. J. Hirschheimer, F. G. Tiffany, E. O. Edwards, Henry Gund, J. B. Funke, L. W. Spicer, William Tarbox, F. H. Hankerson, W. E. Sawyer, Miss Fanny Sill and Miss Jennie Brindley.

LUNCHEONS.

Thursday Miss Mary Crosby gave a luncheon at the Country club in honor of her cousins, Mrs. Frank Moore Bliss of Osborne, Mo., and Mrs. A. M. Johnson of Chicago. The guests were Mesdames D. Cunningham, F. H. Hankerson, E. L. Colman, W. E. Sawyer, Sherman Lennon, A. G. Paul, W. A. Thompson, G. W. Traer, L. C. Colman, T. H. Spence, W. R. Finch, Miss Marion Day and Miss Fanny Clarke.

PICNIC AT MYRICK PARK.

Thursday a picnic party at Myrick Park was given in honor of Mrs. Viola Pettingill of St. Paul and Mrs. Fred Rogers of Kansas City. Those of the party were Messrs. and Mesdames J. L. Pettingill, R. F. Weston, J. V. Palmer, E. R. Savage, Charles Servis, Mesdames Amelia Rogers, George Powell, A. G. Nevins, Fred Rogers, Viola Pettingill, Frank Cook, Miss Maud Pettingill, Palmer, Rogers, and Charles and Raymond Pettingill.

DRIVING PARTY.

Mrs. Evelyn Lawson chaperoned a party of young people at a drive around the city Wednesday evening. She afterwards entertained them at a musical at her home and refreshments were served.

The affair was in honor of her sister-in-law, Mrs. Alfred Johnson of Chicago. In the party were the Misses Sophie and Blanche Rannum, Lucile Servis, Pearl Johnson, Messrs. Flynn, Taggart, Otto Bosshard and Oscar Hulberg.

EVENING RECEPTION.

There was a pleasant reception and home welcoming last evening at the residence of Mr. and Mrs. E. G. Boynton by the several societies of the Baptist church in honor of Mr. and Mrs. Carl F. Ogden who have just arrived from their wedding trip. Assisting Mr. and Mrs. Ogden in receiving the guests were Rev. John Wellington Hoag, Mrs. Law, Mr. and Mrs. Free Walls, Mr. and Mrs. Emery Mr. and Mrs. Barrett, and Mrs. E. G. Boynton. The house was prettily decorated and dainty refreshments were served. It was a pleasant and informal evening.

OGDEN-FERGUSON.

The marriage of Carl F. Ogden of this city and Miss Anna Ferguson of Minneapolis took place in that city Wednesday evening at the home of the bride's parents, Mr. and Mrs. Harry Ferguson. The Rev. John Wellington Hoag, pastor of the First Baptist church, of this city, performed the ceremony.

DINNERS.

Mrs. H. E. Derr of Wood street entertained at a dinner Wednesday. The guests were Mesdames M. Dorsey, F. Shaddock, A. J. Winters and Fred Lockman.

MURDER IS CONFESSED

Detroit, Mich., Aug. 12.—Harry Johnson, who says his home is at Sherman, Tex., has made a confession to Chief of Detectives McDonnell in which he said that Harry Parker, who was arrested with Johnson last week in Cleveland, murdered Pawnbroker Joseph Moyer in his Monroe avenue pawnshop on July 28, while Johnson rifled the display windows of diamonds and jewelry. Johnson said that the murder was committed by Parker with a hammer handle, which had been "loaded" at a Detroit blacksmith shop. Parker's name, Johnson said, was assumed, but his own name was correct as registered by the police.

After Johnson's confession he was confronted with Parker and the latter, who has been the more stolid all along since the arrest of the pair in Cleveland, is said by the police to be also on the verge of a collapse. Parker, it is stated, admitted that the case against them was too strong to be successfully fought.

HIS BLISS SOON BROUGHT TO END

East St. Louis, Ill., Aug. 12.—The arrest here of Edward G. Bolgard on a charge of bigamy brings to light a remarkable dual life and the fact that Bolgard maintained two homes and two wives within a stone's throw of each other. Both homes were in the vicinity of Garrison and Lincoln avenues. For two weeks Bolgard carried out the deception, living with wife No. 1 part of the time at 2130 Eugenia street and with wife No. 2 at 116 South Garrison avenue.

By plausible stories he kept both women in blissful ignorance of the true state of affairs till the suspicions of Mrs. Bolgard No. 1 brought the denouement. Bolgard is 21 years old, small of stature, and is not prepossessing. Wife No. 1, to protect Bolgard, denied that she was ever married to him until the defendant himself had confessed and wife No. 2 testified to seeing the first wife's marriage certificate.

THE KING'S REFERENCE

London, Aug. 12.—Parliament was prorogued yesterday. The lord high chancellor, the Earl of Halsbury, read King Edward's speech, the most interesting clauses of which, from an international point of view, referred to the peace negotiations and the crisis in Sweden and Norway. Regarding the peace negotiations the speech says: "Negotiations, due to the initiative of the president of the United States, are about to be entered upon between the Russian and Japanese governments for the purpose of terminating the deplorable conflict still proceeding in the Far East. It is my earnest hope that they may lead to a lasting and mutually honorable peace."

Concerning the Swedish-Norwegian situation the speech says: "A dissolution of the union between Sweden and Norway apparently is imminent. I am confident that by the exercise of wise moderation on each side a settlement will be arrived at which will be acceptable to both countries."

BURNED BY BOILING SOAP

New York, Aug. 12.—Twenty unconscious firemen, burned by boiling soap, were carried from a fire in W. H. Daggett's Sons' soap factory in West Twelfth street. Tanks containing 70,000 gallons of soap suds exploded after a fire in the three-story building had been brought under control. For five hours thereafter firemen fought this new danger, crawling on sidewalks outside the building, unable to stand in a poisonous cloud of smoke which exhaled from the fiery soap greases and continually exposed to little rivers of the scorching fluid.

Water seemed for the first three hours to have no other effect on the burning soap suds than to cause them to flow more freely, with greater peril to the fire fighter. Before the fire was brought under control six of the firemen had been taken to the hospital and many others who did not go were barely able to walk. The loss was estimated at \$50,000.

Time and money are supposed to be of equal value. You would give money freely to be able to secure a good servant, a good clerk, a desirable house—or to meet any present need. How much TIME will you give? It may require merely enough in which to read and answer a few want ads.

Trade not so Favorable

New York, Aug. 12.—R. G. Dun & Co.'s Weekly Review of Trade says: Trade reports are less uniformly favorable, but adverse factors are of a temporary nature and the net results for the week is satisfactory. Numerous strikes have occurred, exciting the customary pernicious influence over business, and the epidemic of yellow fever is restricting trade. On the other hand thermal conditions have facilitated retail trade, crop prospects have greatly improved, and out-of-town buyers are numerous in all the leading markets. Manufacturing plants are increasingly active, textile mills still occupying the strongest position, while shoe-shops are not making concessions to get business. Iron furnaces and steel mills make progress, but less rapidly. Lumber mills and dealers are having an exceptionally busy season. Railway earnings in July were 7.4 per cent, greater than in the same month last year and foreign commerce at this port for the last week showed an increase of \$3,917,430 in imports, while exports decreased \$1,009,227. Failures this week numbered 222 in the United States, compared with 222 a year ago, and 19 in Canada, against 23 last year.

BIG SHOW COMING

Jack Hoeffer's show will play Sunday night, August 13th, in "Knobs O'

Tennessee," a play seen here or the first time at popular prices. Last year this play was seen in the cities at \$1 prices. Manager Hoeffer's company is the first to produce it with a popular priced show. A big company is carried consisting of twenty people. Eight big vaudeville acts will be seen headed by De Hallis and Valora, the comedy jugglers.

A PURELY INCIDENTAL OBSERVATION.

What is a Grand Jury?

Nothing that hurts honest men! It is simply a Public Auditing Committee!

A private business concern that does not have its business audited now and then, is not regarded by other business establishments as wise.

Who may call for a Grand Jury?

Anybody!

It is the mistaken notion of many people that the call must come from the County Attorney, and that its granting is within the discretion of the Circuit Judge.

The fact is that any citizen may call for a Grand Jury, and that the circuit jurge must comply with the demand; he has no discretion in the matter.

What of it?

Nothing! Only grand juries are all the rage just now.

ADVENTURE AND "AD-VENTURE."

No store in this city—none anywhere—has ever grown to its full stature, achieved real success, until its owner has yielded to the spirit of "ad-venture," and has ADVERTISED MORE THAN HE COULD AFFORD TO!

Every successful man, in any line of human effort, has found it necessary, at times, to break every law in the "Code of Caution." If Peary finds the Pole it will be because he risked more than he could "afford to."

Modern conditions of life have developed in the race as great a love of "ad-venture" as our fathers had for adventure—and the same tingle of the blood which came to the fathers in the victories of pioneering comes, nowadays, to the business man who has rescued his enterprise from peril.

It was the spirit of adventure which enabled the first Astor to establish a fur-trading station in the far and perilous Northwest—and it is the spirit of "ad-venture" which induces the modern trader to try to establish a store in a field where competition dwarfs him. The dangers of a complex life are as great as of an unexplored country.

The store-keeper of to-day is often in competition with houses boasting "working capitals" larger than his entire assets. His chances are small—unless prosperity has somewhat dulled the enthusiasm of the big fellows—unless they imagine that they are big enough to omit advertising now and then. In such event the smaller merchant finds his tide at the flood—his opportunity not only ready to be grasped, but almost ready to grasp him.

On the day when the small merchant advertises more than he can "afford to," and the big merchant less than he should—less than he MUST, even to hold his place in the race—the small merchant has "taken a trick" in the game, gained a rung on the ladder; and is strengthened for the next trial of strategy.

HANDING IT TO DOWNS.

The gavel downed Downs!

Mr. Downs should remember that there is such a thing as getting too gay. Mr. Connor may as well reflect on these things, too.

Mr. Downs has had the audacity to demand that the ordinary safeguards of private business concerns be applied to the transaction of the city's financial business; Mr. Connor has declined to audit certain bills against the city not having the appearance of regularity.

One of these bills was withdrawn; the gentleman said he would not take the money "under any circumstances." That sounds like an admission that Downs and Connor are right, and that the bill was a "grab." But it wasn't; it was merely evidence of the generosity of the man who wouldn't take the money "under any circumstances." It must be so, else why is Mr. Connor criticised and Alderman Downs "downed?"

Downs is a dangerous citizen. It seems incredible that the Fifteenth ward should elect to office a man of such brutal instincts. He became

so menacing last night that it was necessary to call in the police force to restrain him. Why, this mad Irishman actually attempted to get up on the floor of the city council and criticise proceedings in which the finances of the city are involved!

Some day, Mr. Downs will find out that it don't do for a man to "shoot off his mouth" during the "closed season."

A CORNER IN PENS.

City Clerk Sieger's bill for pens was allowed. It came to \$44.00. A local merchant, at the request of The Tribune, made the following estimate.

"Thirty-one and one-half gross of Esterbrook Falcon pens (medium grade and style most used), bought from the wholesale in single gross lots, and adding a profit of 50 per cent for the retailer, can be procured of any dealer for \$44.00." That means that the city clerk has purchased 4,536 pens. It is not known whether they were purchased as paving material, or to be used as ballast for the Ship of State.

THE SPECTATOR.

Bert Harrison, a La Crosse boy who graduated from the Boston school of technology several years ago, is making rapid strides in his profession of designer and architect, in the east. He is at present engaged in completing the electrical and mechanical designs for the interior of the new eight-million dollar custom house in New York, work which calls for the highest degree of technical skill and practical knowledge. Mr. Harrison was fortunate after his graduation from the Boston technical school to get in with Cass Gilbert, the famous New York architect, who furnished plans for the Minnesota state capitol, as well as the five-million dollar plans for the Wisconsin state capitol which because of the great expense, the legislature unfortunately had to turn down. Mr. Harrison has risen rapidly in his profession and at the present time is one of Cass Gilbert's leading designers. Incidentally he is receiving a very comfortable salary.

La Crosse Methodists are interested in the announcement that the new Methodist Hymnal is to be ready for delivery by the first of September. It has been in preparation for several years past, the work being pursued quite slowly in order to have it performed in the best manner possible. It is to be the official hymnal of the Methodist Episcopal church and of the Methodist Episcopal church south. The preparation of this hymnal was authorized by the general conference of the Methodist Episcopal church which met in Chicago in 1900, and by the general conference of the Methodist Episcopal church south which met in Dallas in 1902. The object was to supply the church with a hymnal smaller in size than the hymnal then in use and one adapted to the uses of the public congregation, the prayer meeting, the class meeting, and the Sunday school. The new hymnal contains 717 hymns, besides doxologies, occasional pieces and chants, a reduction of four hundred under the old hymnal. More than this number have been left out, however, and several hundred new hymns inserted. Nearly all the old favorites have been retained. In this volume the words of each hymn are inserted with the music of the tune. This increases the size and makes the book 160 pages larger than the tune edition of the old hymnal. The new hymnal contains in addition to the hymnas and chants, the psalter, covering eighty-three pages, and the ritual. In the ritual are given forms for the celebration of marriage and the burial of the dead not included in the old book. The hymnal in use in the church which the new one is to supplant has been in service for some thirty years.

LA CROSSE MAN BUYS WINONA BOAT LIVERY

Steve Ward, who for the past fourteen years has conducted a boat livery in Winona, has sold out the business to William Courts, La Crosse, who took charge today. Mr. Courts has been conducting a farm on French Island and desired to get into a line of work that would not be quite so tiring. He will devote his entire time to the business and will erect a convenient boathouse adjoining the dock and will increase the number of skiffs to thirty. He will also take up a launch from La Crosse which will be made part of the outfit. The deal was closed yesterday and Mr. Courts returned to his farm at French Island to close up matters there, going back to Winona again today.

"Curiosity does, no less than devotion, pilgrims make." And not only pilgrims—but readers of advertise-For example, a man with a thousand dollars to invest is probably reading the want ads, today, curious to learn what chances are offered for "putting his dollars to work."

Certainly a Mixture.

This is a topsy-turvy world. One man is struggling for justice and another is fleeing from it. One man is saying to build a home and another is trying to sell his less than cost. One man is spending all the money he makes in taking his girl to entertainments and sending her flowers in the hope of eventually making her his wife, while his neighbor is spending all his gold trying to get a divorce. One man escapes all the diseases man is heir to and gets killed on the railroad. Another man goes everywhere without being hurt and dies of the whooping cough. Such is life.—Neilsville Times.

Wausau	36 42 .462
Green Bay	32 46 .410

With every indication that the game was practically won and the score standing 2 to 0 up to the eighth inning La Crosse was defeated the second game on the home grounds by Oshkosh through the same sort of unfortunate plans which resulted in defeat for the locals the day before.

Another peculiarity of the game is that the same man, Captain Bond, made the serious errors which resulted in the visitors winning out. Two easy chances were lost by Bond, Pitcher Dodge lost his grip for a minute or two, allowing three singles and when the fatal inning ended the score stood 2 to 3, which were the figures at the close.

Bond partially redeemed himself by making a two bagger and bringing in the only two runs made by the locals.

LA CROSSE TO HAVE ITS HIGH SCHOOL AT \$155,000

Extra \$30,000 is Appropriated Last Night by a Vote of 16 to 2--Bacheller Sees More "Extras"

La Crosse is to have a new high school to cost when completed and furnished \$155,000, as forecasted exclusively in last evening's Tribune. The final step in the consummation of this plan was taken by the common council when the ordinance providing for an additional appropriation of \$30,000 was passed by a vote of 16 to 2, the three-fourths vote required by law just being realized.

The vote was as follows:

Ayes—Ald. Downs, Keller, Rose, Smith, Emery, Valentine, Schulze, Rehfuess, Houska, Withee, Muenzenberger, Joadie, Foerster, Palmer, Hirschheimer, Lang—16.

Noes—Bacheller, Grover—2.

Had the three absentees, Aldermen Anderson, Bartl and Winters, all of whom were out of the city, been present and voted against the measure, the result would not have been affected.

The call of the council which had been threatened in case all members pledged to support the ordinance were not present, did not have to be demanded, every member being in his seat when the proposition came up.

Alderman Bacheller spoke briefly against the ordinance, contending as he has all along that the school will cost \$50,000 more before it is completed. He termed this \$30,000 appropriation as simply "the thin edge of the wedge."

Alderman Rose put himself on record as being opposed to the manner in which the school board has conducted the new high school proposition, intimating with various questions which he put to Commissioner Gund, who was allowed to address the council, that he did not oppose the school, but thought the board had conducted the preliminaries in a rather high handed manner. He asked Mr. Gund numerous questions as to what assurance the council had that the bill of extras in the construction of the building would not amount to over one percent and that the board would not make demands for larger appropriations to complete the building. Mr. Gund in reply stated that the board had simply the word of Architect Llewellyn for this and had to base its calculations upon his reputation as a first class architect.

DR. GATTERDAM GOT GREAT STRING OF BASS

Dr. E. A. Gatterdam returned yesterday from a fly-fishing trip with the biggest string of bass seen this year. With a party which included George Ringling of Ringling Brothers' circus and Conductor Robbins Steve Ward of Winona brought them down from that city in the Isabelle, and they fished all the banks for 32 miles. Great luck rewarded their efforts, not only in the number of fish caught but in their sizes. Several three and four pounders were among the lot and the party report a great trip.

Volo, the Volitant Meets Grief in West

Tom Butler, the bicycle rider known as Volo, the Volitant, who visited La Crosse with Barnum & Bailey's circus this year and performed the feat of leaping the gap, has at last come to grief in this venturesome act. At Helena, Mont., he failed to clear the gap properly and fell to the ground. He was unconscious for half an hour, and the physicians fear he is internally injured and will die.

Butler's wife is with him this year and loops the loop in an automobile. In Butler's trick the second platform onto which he leaped was so placed that the rider on descending barely reached it and it was apparent to everybody that should his leap for any cause fall short even a few inches there would be danger of his crashing into the framework of the second platform and receiving a fatal injury. It was considered the most spectacular and perilous feat ever put on in a circus. The automobile trick, performed by Volo's wife, is principally a trick and is only moderately dangerous.

FOR WHOSE BENEFIT IS MYRICK PARK OPERATED?

Is the Street Railway Co. Running the Pleasure Resort or is it in Existence for Taxpayers

Is Myrick park "run" by the La Crosse Street Railway company, or has the city still a little something to say about it?

This question is being raised by business men who have watched with some amusement, turning into irritation the announcements from the office of the board of public works and from the offices of the street car corporation.

A week ago announcement was made by the city that Myrick park would be formally opened last Sunday. The announcement was published and immediately followed a violent protest from the street railway company. The representative of the company who called down the newspapers over the telephone for their mistake used no uncertain language.

This week another announcement was made at the city hall that the park would be opened tomorrow. The street railway company now comes forward with the excited denial of the city's statement and declares it (the street car company) is not ready to open the park, intimating that when it gets ready it will open the park and not before that time.

Inquiry at the board of public works office this morning developed one thing beyond a question of doubt; that the city really owns the park property. Further than this little could be verified. Members of the board seemed to be in the dark as to whether the street car company or the city is running the resort. It developed, however, that the city has paid for the construction of a handsome new band stand, which will be a dead letter until the street car company gets ready to take a band to

the park to furnish music to those who ride to the park on its cars, and—of course, to those who walk. The board of public works was under the impression that some arrangement had been made whereby the street car company was to reap a harvest, but preferred that the chairman of the committee on parks authorize a statement.

Alderman Carl Foerster, chairman of the committee on parks says there is an understanding between the park committee and the street car company that the latter shall have the privilege of giving band concerts in the park, provided it pays for the band. Alderman Foerster says that further than this the company has no agreement or rights. In consideration of its paying for the band the company was, of course, to reap the harvest of fares to and from the park. The alderman declares that was no agreement as to the date the concerts should begin or end, and that it is up to the street car company whether or not the concerts are given at all.

So far as an "opening" of the park is concerned, it seems that the park has been "open" for a number of years and that the formal opening by the company will simply mean the first concert.

It has been remarked by business men that the philanthropy of Mr. A. W. Pettibone in donating thousands of dollars for the beautification of Pettibone park—one of the most beautiful spots on the Mississippi river—seems to have been forgotten in the hubbub created by the corporation whose line run past old lakeless Lake park; forgotten in the greedy scramble for nickels.

Backache, the First Symptom of Kidney Trouble.

Pe-ru-na Is Invaluable in Such Cases.

Prominent Persons Who Have Been Cured.

Daniel D. Bidwell, Supervisor, Notary Public and a member of I. O. O. F., 160 Pearl street, Buffalo, N. Y., writes:
"Having used Peruna for a short time, I desire to write you as to my present condition.
"When I obtained Peruna I was suffering from chronic indigestion and kidney and bladder trouble. It seemed to help the circulation at once. My digestion is now perfect and my kidneys and bladder do not trouble me in any way. In fact, I give Peruna the entire credit.
"Hoping that your remedy will reach all sufferers in a similar case, and thanking you, I remain,"
Daniel D. Bidwell, N. P.

Dangerous Kidney Diseases Cured.

At the appearance of the first symptom of kidney trouble, Peruna should be taken.

This remedy strikes at once the very root of the disease.

It at once relieves the catarrhal kidneys of the stagnant blood, and prevents the escape of serum from the blood.

Peruna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain.

It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease.

Peruna cures catarrh of the kidneys simply because it cures catarrh wherever located.

A remedy that cures all the catarrhal derangements of the kidneys should certainly be considered a household necessity. Peruna is such a remedy.

A South American Cured by Pe-ru-na.

Count Alfonso d' Aljores, of 27 Plaza del Torro, Buenos Ayres, South America, while visiting in Chicago, wrote from 247 Cleveland avenue, that city, as follows:

"I used Peruna a short time ago to build up my system, which was all run down from overwork, worry and a cold which had settled in my back and kidneys, causing me serious annoyance and trouble.

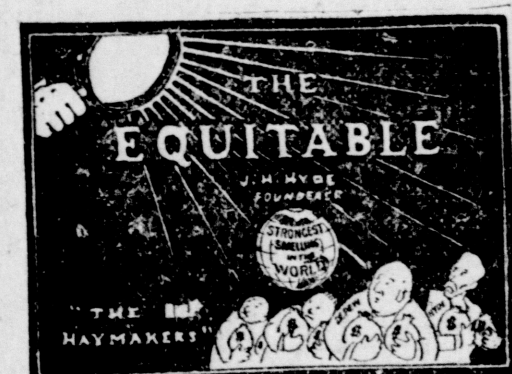

"When I returned home from work at night, I was so exhausted and worn out, together with the pain in my back, that I felt I would never be able to take up the burden of life again in the morning, but when morning came I would get out somehow. This dragging through life continued for a couple of months, when I decided I would take Peruna.

"I am glad to state that I found it just the medicine for me. In a couple of months I was restored to perfect health and strength, and my work was no longer a burden. I therefore endorse your medicine as worthy of the confidence of the sick."—Alfonso d' Aljores.

HOW TERRA NOVA BRAVED THE PERILS OF THE ARCTIC TRIP

Got to the "America" in the Nick of Time to Save Them

Explorers Tell a Thrilling Story of Failure

Tromsø, Norway, Aug. 12.—The relief steamer Terra Nova, which succeeded in rescuing Anthony Fiala and the other members of the Ziegler polar expedition, has arrived here. She sailed from Tromsø June 14 last, shaping her course direct for the ice fields, which were encountered June 19 in latitude 75 degrees, 57 minutes north; longitude 35 degrees, 23 minutes east. The condition of the ice being favorable, the ship proceeded eastward along the edge of the field until June 27, when it commenced to force its way through the floe, and on July 25 struck open water.

First Rescue of Explorers.

Thick ice was again encountered the following day, but on the morning of July 28 Fiala and his companions were sighted, and on July 29th Terra Nova reached Cape Dillon, where she found six members of the expedition safe and well. From this outpost sleds were dispatched to notify Fiala at the headquarters camp of the arrival of the rescue ship. The Terra Nova reached Cape Flora July 30, and found more members of the expedition. These had become weakened by the hardships they endured, and some of them were so ill that they could not have held out for another winter.

Fiala Is Relieved.

Returning to Cape Dillon Champ, who commanded the relief expedition, organized a sled party and started for the headquarters camp, from which

he brought back Fiala and his comrades. The Terra Nova sailed for home Aug. 1. It got out of the ice pack Aug. 6 and returned in excellent condition.

Loss of the Explorers' Ship.

The members of the Ziegler expedition tell a stirring story of their vain efforts to reach the pole. In the severe weather of November, 1903, the ship America, which carried the expedition, broke up, and the provisions and coal were lost. Part of the wreckage remained until Jan. 22, 1904, when it disappeared during a storm. The loss of the provisions was seriously felt, and but for the stores left by the Baldwin-Ziegler expedition in Teplitz bay the men would have been in bad straits.

Conditions Were Insurmountable.

In the following spring continued attempts were made eastward and westward to force a passage to the pole. The conditions, however, were insurmountable. The expedition met with much open water, and day after day encountered fresh dangers and difficulties. Ultimately the supply of provisions began to give out and a painful journey southward was begun. The members of the expedition finally reaching the depots at Cape Flora, Cape Dillon and Camp Ziegler, among which they were distributed, and where they managed to eke out the limited supplies by catches of walrus and bear.

Improvement in Maps and Charts.

William J. Peters, of the United States geological survey, who was second in command, and others utilized the time in survey work, and many improvements in and additions to existing maps and charts will be the outcome. The relations between all the members of the expedition were most cordial and all took turns at duty. All were most hopeful of rescue un-

til the fall of 1904, when the solid ice field stretching in every direction seemed to preclude the possibility of help reaching them and they became despondent.

Marvin Returns From International Convention

George B. Marvin, Jr., has returned from the International convention of the Independent Order of Foresters which was held a few days ago at Atlantic City, New Jersey.

There were delegates there from all over the world, some from Australia, England, Ireland and Wales. One hundred and fifty-nine delegates were present, three of whom represented the United States, and about three hundred visitors were present.

Some very interesting business was disposed of and Mr. Marvin reports a very fine trip and enjoyed the places of interest along his route of travel very much.

Cummins to Speak on Railway Rates

Washington, Aug. 12.—A debate over the question of the regulation of railway rates by the government is announced to take place next week before the Chattanooga assembly at Clarinda, Ia. The debaters are Governor Cummins, of Iowa, and Daniel Davenport, of Bridgeport, Conn. Governor Cummins will support the affirmative. Davenport will represent the opposition from the standpoint of the small investor in railway stocks and bonds. Governor Folk, of Missouri, will also speak.

Suicide of a Mint Employee.

Philadelphia, Aug. 12.—Robert S. Huston, who for a number of years held the position of chief clerk in the United States mint here, committed suicide by hanging in the cellar of his home. Several months ago Huston suffered a stroke of paralysis, and although he recovered sufficiently to return to the mint he did not grow entirely well. He was 48 years old.

DOCTOR TURBIN,
103 Randolph St., Chicago, Ill.

YOUNG MEN If you are troubled with nervous debility, stupor, caused from youthful errors or excesses, you should consult this specialist at once. Don't delay until too late.

MIDDLE-AGED AND OLD MANKIND There are thousands of you troubled with weak, aching backs and kidneys and other unmistakable signs of nervous debility. Many die of this difficulty, ignorant of the cause. The most obstinate cases of this character treated with unfailing success.

ALL DISEASES of delicate nature—inflammations and kindred troubles—quickly cured without pain or inconvenience.

CATARH which poisons the breath, stomach and lungs and paves the way for Consumption, also Throat, Liver, Heart, Kidney, Bladder and all constitutional and internal troubles; also Rupture, Piles, Fistula, Dyspepsia, Diarrhea and all diseases of the stomach and bowels treated far in advance of any institution in the country.

BLOOD AND SKIN Diseases, Scars, Scrofula, Tumors, Tetters, Eczema and Blood poison thoroughly eradicated, leaving the system in a strong, pure and healthful state.

WRITE your troubles if living away from city. Thousands cured at home by correspondence and medicine sent as directed. Absolute secrecy in all professional dealings. Address all letters, giving street and number plainly. Send 2-cent stamp for list of questions and pamphlet.

Cure Nervous Debility, Blood Poison, Rheumatism, Enlarged Veins, Fistula, Piles and Other Rectal Diseases, Kidney, Bladder and Lingering Ailments.

MAKE NO CHARGE FOR CONSULTATION, whether you take treatment or not.

VARICOCELE.

Varicocele Impairs Vitality

I want every man afflicted with Varicocele, Blood Poison, Nervo-Vital Debility, or allied troubles to come to my office, where I will explain to him my method of curing these diseases. I invite in particular all men who have become dissatisfied with treatment elsewhere. I will explain to you why you have not been cured, and will demonstrate to your entire satisfaction why I can cure you safely, quickly, and permanently. MY COUNSEL WILL COST YOU NOTHING, BUT MY CHARGES FOR A PERFECT CURE WILL BE REASONABLE AND NOT MORE THAN YOU WILL BE WILLING TO PAY FOR THE BENEFITS CONFERRED. I WILL DO BY YOU AS I WOULD WANT YOU TO DO BY ME IF OUR CASES WERE REVERSED.

LADIES If you are suffering from persistent Headache, Painful Menstruation, Uterine Displacements, Pains in Back, and feel as if it were impossible for you to endure your troubles and still be obliged to attend to your household and social obligations, give the Doctor a call. He will cure you if you trust yourself to his care. A great many have taken treatment of this Specialist, and he can refer you to those who have been cured by him.

Thousands cured at home by correspondence and medicine sent as directed. Absolute secrecy in all professional dealings. Address all letters, giving street and number plainly. Send 2-cent stamp for list of questions and pamphlet.

GOES TO PUT CAT OUT; FINDS THIEF IN HOUSE

While the family of Alexander Robson of the corner of George and Gillette streets were on the front veranda about seven o'clock last evening a man entered by a rear door.

Reginald heard the man fingering the spoons on the dining room table and thought it was the cat. He went to put the feline out and heard a noise in the next room and upon going into the kitchen saw the stranger hurrying through the kitchen door.

He was of short stature and wore a cap. He made such a hasty retreat through the alley and across several yards that he was soon lost track of. The boy then returned to his home and told his story.

Only a razor is missing, although other losses may yet be found. All of the doors on the ice box were open and the thief first helped himself to something to eat.

The police have been notified, but as yet no one has been apprehended.

TEAM DASHES FOR A DRINK

The team belonging to the La Crosse steam laundry, driven by Henry Arntsen, ran away yesterday while the driver stepped into the bakery shop of A. Nelson for a few moments and did not stop until they reached the watering trough on St. James street.

They then came to a standstill and drank until the breathless driver came running up to them. The wagon was not damaged.

Gorman House Opens Sunday

At noon tomorrow the new hotel at the corner of Mill and Hagar streets will be opened.

The name of "Parker House" will be abandoned and the place will run under the name of its proprietor as the Gorman House.

All of the rooms have been remodeled and steam heat, electric light and bath installed, and it will be one of the most up-to-date hotels on the north side when it is eventually in running order.

Mr. Gorman has had considerable experience in the hotel business in Milwaukee and he will no doubt make a success of his new venture.

RAILROAD MAN BUYS HOME

John Wagner has purchased the house belonging to Henry Nein in the 600 block on Avon street.

Mr. Wagner is foreman at the Milwaukee coal chute. The consideration could not be learned.

NORTH SIDE BRIEFS

Mr. and Mrs. Mark Audist who have been the guests at the home of Mr. and Mrs. E. M. Smith of upper Prospect street have gone to Eau Claire where they will visit for about a month.

The Nichols family are camping at the cottages at the head of French Island.

Harley Huntley who was operated upon at the La Crosse hospital some time ago is able to be around again.

M. A. Hallahan has accepted a position on the north side for the Metropolitan Insurance Co.

Miss Josie Johnson is ill.

C. R. Gilman, chief electrician of the Milwaukee road of Milwaukee is in the city.

Charles Ramberger who was formerly proprietor of the La Crosse Engraving Co. of the north side, but at present of St. Louis, is in the city in the interests of the new tin can company which is soon to locate here and is visiting at the home of Mr. and Mrs. John Manke of 932 Avon street.

Mrs. E. A. Wallen of Primrose, Wis., is the guest of Mrs. A. Nelson

for a few days while the latter is ill.

Miss Sylvia and Gladys Nelson who have been visiting with their aunt, Mrs. A. M. Stevenson of New Amsterdam, returned home today.

Joseph McGrath left today for Duran, Wis., where he will visit for a few weeks.

Mr. and Mrs. A. M. Nelson and family of 1522 Loomis street will leave next week for a few days' visit in New Amsterdam, with the latter's father, Nels Christianson.

Mrs. T. Casper who has been confined at the La Crosse hospital for some time was recovered sufficiently to be removed to the home of her mother, Mrs. Frank Pretasky of 632 Kane street.

She is getting along very nicely.

Harry Evjen the Caledonia street barber who was operated upon at the Lutheran hospital yesterday morning for appendicitis is getting along very nicely and it is hoped that he will soon be able to be around again.

While bathing in Black river last evening near the site of the old Sawyer and Austin mill, Geo. Cloos of Milwaukee who is visiting here, ran a spike into his foot.

The spike was protruding from a boom upon which he stepped in attempting to get out.

It is not a serious gash, however, and will soon be healed up if blood poisoning does not set in.

Baby Born in a Storm

New York, Aug. 12.

four hours the Hamburg liner Graf Waldersee drifted at the mercy of a hurricane which struck her during the trans-Atlantic voyage which the steamship has just finished in safety. On arrival at the pier about twelve hours late the passengers held a reception to thank Captain A. Krech for bringing them safely through the greatest storm experienced in the history of the Graf Waldersee, and probably one of the worst ever faced by an Atlantic liner.

The storm began the morning of Aug. 2. A few hours later waves were rolling over the ship, all passengers were locked beneath decks and bags of oil were hung over the ship's sides for thirty-six hours as a protection. For twenty-four hours the waves ran so high that the steering gear of the liner was inadequate to keep her in her course and the ship practically drifted with the storm. Some lifeboats and deck superstructures were carried overboard by the waves.

At the height of the storm a baby was born in the steerage and named after the ship.

Special Excursion Rates to Colorado, Utah and the Black Hills,

Via the Northwestern Line. Beginning June 1st excursion tickets will be sold to Denver, Colorado Springs, Pueblo, Salt Lake City, Hot Springs, Deadwood, Lead and Custer, S. D., etc., good to return until October 31. A splendid opportunity is offered for an enjoyable vacation trip. Several fine trains via the Northwestern Line daily. Apply to agents Chicago & Northwestern railway.

Simplicity of Construction

Ease of operation, ability to stand severe service, and low cost of maintenance, are characteristics which have commended the the induction motor to users of electrical machinery in practically every line of industry.

The total absence of sparking makes it possible to employ induction motors in the presence of explosive dust such as is found in many manufacturing establishments where it would be exceedingly dangerous to use a motor of any other kind.

UNIVERSITY OF NOTRE DAME, NOTRE DAME, INDIANA.

We call the attention of our readers to the advertisement of the University of Notre Dame, one of the great educational institutions of the West, which appears in another column of this paper. Parents selecting a college for their sons for the coming year would do well to write to the president for a catalogue.

Private Rooms are given free to students of the sophomore, junior or senior years of any of the collegiate courses.

There is a thorough preparatory school in connection with the University, in which students of all grades will have every opportunity of preparing themselves for higher studies. The commercial course may be finished in one or two years according to the ability of the student. St. Edward's Hall, for boys under thirteen, is an unique institution. Thoroughness in class-work, solicitude in the care of students, and devotion to the best interests of all, are the distinguishing characteristics of the University of Notre Dame.

Sixty-one years of active work in the cause of education have made this institution famous all over the country.
